WHAT IS EUROPE DOING FOR...

Galway

Mairead McGuinness

Commissioner for Financial Services,
Financial Stability and Capital Markets Union

Dear Resident,

Ireland's membership of the European Union has had a huge impact on our lives: from the use of a common currency to protecting our environment, from increased economic growth to tackling gender inequality, and from giving the country a stronger voice on the global stage to promoting social inclusion.

Communities, businesses, farmers, schools, universities and cultural organisations are just some of those who have benefitted from EU support across Ireland.

While we should never lose sight of the broader benefits of EU membership in terms of peace, prosperity and political stability, this report zooms in at a county level to illustrate just a few of the stories of how the EU has worked with partners to deliver positive results on the ground.

In many ways, these stories capture the essence of what EU membership means to people at a local level across the length and breadth of Ireland.

Yours faithfully

Mairead McGuinness

Commissioner for Financial Services,
Financial Stability and Capital Markets

WHAT IS EUROPE DOING FOR...

Galway

Saving the Curlew at Lake Corrib

Over the last 50 years, the loss of a suitable breeding habitat has seen the Curlew suffer widespread declines across Europe, but nowhere has this been more severe than in Ireland. However, an EU project is making a difference in known breeding sites in Lough Corrib, Co Galway.

Learning about the deep blue sea

A successful project led by NUI Galway has now expanded its reaches into the virtual classroom. The EU-supported ATLAS project has developed a range of free, open-access educational resources on issues and topics related to the Atlantic Ocean and specifically the deep sea.

Fishing for Litter

Fishermen in Ros a' Mhil are making a significant difference to sea pollution by landing an unusual catch. By participating in the Fishing for Litter project, a Clean Ocean Initiative supported by the EU, all trawlers in Ireland's main ports are encouraged to help clean our seas.

**A climate change solution
beneath our feet**

Ireland's raised bogs are among Europe's oldest near-natural ecosystems, dating back over 10,000 years. Protected under the EU Habitats Directive, they are home to many rare and endangered flora and fauna and they are Ireland's greatest carbon stores. Carrownagappul Bog is one of the best examples of a raised bog West of the River Shannon.

Galway

Farming on the edge of Europe

The iconic Aran landscape draws visitors from all over the world, so protecting the beauty and the quality of the islands is of utmost importance. With EU support, local farmers are now preserving traditional island farming practices and helping to maintain the islands' significant natural and cultural heritage.

Saving the Hen Harrier

The Slieve Aughty Mountains extend southwards from just south of Lough Rea, County Galway to Scariff in County Clare. The peaks are not notably high or indeed pronounced; It has become a new haven for the Hen Harrier and has been designated as a Special Protected Area.

Stem cell therapy to treat diabetic kidney disease

Chronic kidney disease is marked by the gradual destruction of kidney tissue over time and is a major cause of sickness and death in the EU. A spin out company from National University of Ireland Galway is investigating how stem cells can be expanded to use in human trials.
